

Neurocrine Biosciences Announces Conference Call and Webcast to Report Fourth Quarter and Year-End 2013 Financial Results

February 4, 2014

Conference Call and Webcast Scheduled For Thursday, February 6, 2014

SAN DIEGO, Feb. 4, 2014 /PRNewswire/ -- Neurocrine Biosciences, Inc. (Nasdaq: NBIX) announced today that the Company will report its fourth quarter and year-end 2013 financial results after the Nasdaq market closes on Thursday, February 6, 2014.

Neurocrine will then host a live conference call and webcast to discuss its financial results and provide a Company update Thursday afternoon, February 6, 2014 at 5:00 p.m. Eastern Time (2:00 p.m. Pacific Time).

Participants can access the live conference call by dialing 800-862-9098 (US) or 785-424-1051 (International) using the conference ID: NBIX. The call can also be accessed via the webcast through the Company's website at <http://www.neurocrine.com>.

If you are unable to attend the webcast and would like further information on this announcement please contact the Investor Relations Department at Neurocrine Biosciences at (858) 617-7600. A replay of the conference call will be available approximately one hour after the conclusion of the call by dialing 800-723-8184 (US) or 402-220-2668 (International) using the conference ID: NBIX. The call will be archived for one month.

Neurocrine Biosciences, Inc. is a clinical stage drug discovery company primarily focused on neurological and endocrine based diseases and disorders. The Company discovers and develops innovative pharmaceuticals, in diseases with high unmet medical needs or where the existing drug classes are inadequate, through a disciplined yet entrepreneurial process. Utilizing a portfolio approach to drug discovery, Neurocrine has multiple small molecule drug candidates at various stages of pharmaceutical development. Neurocrine's two lead late stage clinical programs are elagolix, a GnRH antagonist for women's health that is partnered with AbbVie Inc., and a wholly owned VMAT2 inhibitor for the treatment of movement disorders. Neurocrine intends to maintain certain commercial rights to its VMAT2 inhibitor for evolution into a fully-integrated pharmaceutical company. Neurocrine Biosciences, Inc. news releases are available through the Company's website via the internet at <http://www.neurocrine.com>.
