

## Neurocrine Biosciences Announces Conference Call and Webcast of Fourth Quarter and Year-End 2018 Financial Results

January 15, 2019

**Conference Call and Webcast Scheduled for Tuesday, February 5**

SAN DIEGO, Jan. 15, 2019 /PRNewswire/ -- Neurocrine Biosciences, Inc. (NASDAQ: NBIX) announced today that it will report fourth quarter and year-end 2018 financial results after the Nasdaq market closes on Tuesday, Feb. 5, 2019. Neurocrine will then host a conference call and webcast to discuss its financial results and provide a Company update that day at 1:30 p.m. Pacific Time (4:30 p.m. Eastern Time).

Participants can access the live conference call by dialing 877-876-9174 (US) or 785-424-1669 (International) using the conference ID: NBIX. The webcast can also be accessed on Neurocrine's website under Investors at [www.neurocrine.com](http://www.neurocrine.com). A replay of the webcast will be available on the website approximately one hour after the conclusion of the event and will be archived for approximately one month.

### **About Neurocrine Biosciences, Inc.**

Neurocrine Biosciences, a San Diego based biopharmaceutical company, is focused on developing treatments for neurological and endocrine related disorders. The company discovered, developed and markets INGREZZA<sup>®</sup> (valbenazine) capsules, the first FDA-approved product indicated for the treatment of adults with tardive dyskinesia, an involuntary movement disorder. Discovered and developed through Phase II clinical trials by Neurocrine, ORILISSA<sup>®</sup> (elagolix), the first FDA-approved oral medication for the management of endometriosis with associated moderate to severe pain in over a decade, is marketed by AbbVie as part of a collaboration to develop and commercialize elagolix for women's health. Neurocrine's clinical development programs include opicapone as an adjunctive therapy to levodopa/DOPA decarboxylase inhibitors in Parkinson's disease patients, elagolix for uterine fibroids with AbbVie, valbenazine for the treatment of Tourette syndrome, and NBI-74788 for the treatment of congenital adrenal hyperplasia (CAH).
